

We are proud to announce that our **Charity Golf Event** was a major success and we were able to raise a lot of money for the charity organization Csodalámpa, who grants sick children one wish. Once again **we would like to thank all the participants** of the event who helped to fulfill András, Donat and Adrienn their wishes!

The **14 year old András** is suffering from Leukemia; he had been discharged from hospital two hours before we met him to hand over his gift. His mother was so good at keeping a secret that she hid the unassembled bicycle in the bedroom to make sure that he would not discover it. When we showed him his present he could not hide his surprise and joy. He inspected the bicycle from all angles and couldn't wait to ride it. We wish András a fast recovery and many happy and memorable hours on his new bicycle.

The **15 year old Donat** was getting a two-day treatment when we visited him on 20th August.

Our arrival was a complete surprise and Donat couldn't believe his eyes when he came out of his room and saw the Barcelona jersey.

Hopefully the gift helped Donat to forget about the hospital and pains of the treatments for a moment.

The final gift was handed over at the Heim Pal Hospital in Budapest.

The **17 year old Adrienn** suffers from an autoimmune disorder and was extremely excited when she received her electro-guitar from us.
